

Environmental Policy

Adding Quality to Industry

The policies of M-TEC Engineering Projects specify our values and principles. We act in accordance with them.

Environmental Policy

We are committed to taking an active part in protecting natural resources.

Acting Instead of Reacting

We at M-TEC Engineering Projects play an active role in protecting natural resources by ensuring that our operations take environmental concerns fully into account.

Using Resources Sparingly

We contribute to the sparing use of resources by setting operational goals as part of our environmental management.

Complying with Legislation

We comply with the local environmental legislation.

Providing Environmentally Compatible Products

Our goal is to develop and manufacture products and services in a manner that minimizes our environmental footprint. The relevant management systems are used wherever we operate.

Involving Partners

We also work together with our suppliers and business partners to improve environmental performance along the entire value chain.

Motivating and Training Employees

We endeavour to motivate, educate and train our employees to carry out their activities in an environmentally responsible manner.

Creating Transparency

We encourage a climate of openness and dialogue on environmental issues. We provide regular information about our environmental performance within the framework of our Sustainability Report.
